My workplace is hiring for school year positions and I want you to join our team! Here's what I think you should know:

Site supervisors

 You lead your After School program and plan fun activities.

 Your full-time hours are split about 50-50 between After School and lesson planning time.

 That means you can lesson plan outside, inside, in the morning, late at night, and nearly anytime and anywhere in between.

Group leaders

 You lead your After School group during program time and work with the Site Supervisor to make every day great.

 Your schedule can easily be accommodated no matter how many days you are available.

 Don't sweat the small stuff. If your schedule changes, that can still be accommodated!
